Summary

Passionate User Experience Designer with over 4 years of experience designing scalable, user-centric solutions for digital products in B2B SaaS, CRM, EdTech, Gamification, RPA, and AI industries. Skilled in creating design systems, collaborating with cross-functional teams, and translating complex requirements into intuitive designs. Adept at leveraging research insights and design thinking to drive innovation and deliver seamless user experiences. Recognized as a top 1% learner in ADPList mentorship programs.

Experience

Feb 2025 - Present

Noida, India

Product Designer

Droisys

Present

Designing and enhancing the Account360.ai CRM platform for the U.S. alcohol beverage industry, improving usability and user experience.

Contributing to the design system, ensuring consistency and scalability across the platform.

Conducting user research and usability testing to inform data-driven design improvements.

Collaborating with business analysts, directors, and developers to align design solutions with business objectives.

Focusing on interaction design, accessibility, and responsive UI to create an intuitive and seamless user experience.

Jan 2024 - Feb 2025

Delhi, India

Sr. UI/UX Designer

Deligence

Redesigned the UI and interaction design for a leading educational gaming platform, achieving a 20% increase in engagement and a 15% reduction in drop-offs.

Created a comprehensive design system for the platform, ensuring consistency across all touchpoints and improving design efficiency.

Conducted user research, including persona development, usability testing, and A/B testing, to inform data-driven design decisions.

Collaborated with product managers, developers, and marketing teams, ensuring alignment with business goals and user needs. Visual Interaction Designer

Oct 2020 - Jan 2024

Gurugram, India

Visual Interaction Designer

RPATech

As a Visual Interaction Designer, I developed engaging visual content for top-rated online courses, resulting in a 40% increase in course enrollment on platforms like Coursera and Udemy.

Crafted user interfaces and experiences for our Robotic Process Automation (RPA) projects.

Enhanced learning experiences through collaborative stakeholder engagement and effective design solutions.

Where Ideas Come Alive

Jeopardy Game Dashboard Redesign for New Users

Redesigned the dashboard for a topic review Jeopardy-style game to enhance usability and engagement for new users. Focused on simplifying the interface, reducing cognitive load, and improving navigation. The project involved UX research, heuristic evaluation, wireframing, design system creation, prototyping, and user testing. Additionally, I provided design inputs to the team and worked on refining the design system for consistency and scalability.
